"My partner and I were referred to David as we were planning to join our separate home and financial lives by purchasing a block with the view to building our house soon. We both had complex personal situations and Dave brought it all together for us in a way we could never have done. We supplied the information, and he did all the rest. Kept us informed and worked through some banking issues that were frustrating at times. His service and commitment are second to none. We would highly recommend his services. **Greg**."

"I would like to thank David and all the team and Lifespan Mortgage Services. I have continually found David to be very professional and his attention to detail and prompt responses to my many questions is second to none. The level of detail in the information David provided recently really assisted me to make an informed decision about my personal financial situation. David ensured I can achieve the maximum benefit from my lending institution and did all the leg work to put into place the necessary paperwork on my behalf. All I needed to do was read through and sign the final papers. I feel reassured that my mortgage is now working more effectively for me, and I will certainly recommend Lifespan Mortgage Services to my family, friends, and colleagues into the future. **Susan**"

"David and his team were exceptional from the very start; we weren't pushed to get finance straight away, in fact quite the opposite. David had our best interest at heart, he had a thorough look through our financials and advised we would be much better off if we waited another 6 months and saved a bit more. Once we had saved the extra, we went back to David. As new home buyers David was extremely patient and answered all our questions. he guided us through the entire process. We both thank you David, your service has been A1. **Jay**"
