"I would recommend Maree Yates to do your financial business with any day! Not only is she very professional but also very approachable, empathetic, and there for you and your needs. Maree makes the experience very understandable and goes out of her way to overcome any 'speed humps' that may appear and look at other alternatives to individual situations. My experience with Lifespan was very positive and the outcome has changed my future and for that I am very thankful. **Stacey**"
